

C-Jun-amino-terminal kinase-interacting protein 3
transcript: NM_001318852.2, protein: NP_001305781.1

Variants

- Stop Gained
- Frameshift Variant
- Missense Variant

- Basic and acidic residues
- Disordered
- Interaction with NTRK
- JNK-binding domain (JBD); essential for its function in axon elongation
- Kinesin-binding domain (KBD); essential for its function in axon elongation
- Leucine zipper-like domain (LZ); essential for its function in axon elongation
- Polar residues
- RH
